# TracRac – The Ultimate Rack

## The Ultimate Sliding Rack System

### Standard System Includes:

- 1 set of Base Rails
- 1 set of Overhead Racks
- 4 Crossbar Tiedowns

### TracRac comes in 2 boxes

Box 1: Base Rails

Box 2: Overhead Racks and Tiedowns

Overhead racks and accessories slide into position to suit cargo.

### TracRac Slides

- Reposition or remove racks in seconds.
- Slide toolbox to tailgate.

### TracRac's Built Tough

- Rugged aluminum – no rust or corrosion.
- Carries 1,000 lbs. – weighs just 77 lbs.

### TracRac's Easy-to-Install

- Installs without drilling or bolting, on trucks with stake pockets

### TracRac's Versatile

- Carry lumber, ladders, building material, canoes and kayaks.

# TracRac Accessories

## TracRac Accessories

### Basetrack Tiedowns

Slide along base rails – anchor straps or rope – secure with a twist.  
(Sold as a pair)

### Locking TrackKnobs

Locks the system to the base rails.  
(Sold as a pair)

### Toolbox Mount Kit

Mount your toolbox onto our rails.  
Slide box to tailgate or remove.

### Cargo Holder

Trap loose cargo in the bed, or flip for a rear window guard.

### Cantilever Extension

Extends 32" over cab with 3rd cross-bar in the front.

*Note: cargo holder as window guard*

### TracBox

Low profile increases visibility.  
TracBox slides independent of racks, on inside track.

### Industrial Cantilever

Industrial grade extension – boosts TracRac capacity to 1,250 lbs.
